

Pasadena's Chic New Address

Make Your Move

Lake@Walnut Homes Ready for Move-In

Go ahead. Make your move. Muscle your way through the door to your very happy future, or sit back and enjoy a nice beverage by the courtyard fireplace while the movers take care of all that.

That's right, Pasadena's chic new address, Lake@Walnut has absolutely amazing flats and townhomes, ranging from approximately 945 to 1,767 square feet, that are move-in ready. Which means, (if you move fast) you can have what you've always wanted, NOW, which is always so gratifying.

Just imagine - you'll be where you belong. In the center of things, and the center of Pasadena, to be exact. You'll have your choice of spacious and innovative one-and two-bedroom floorplans, including a live/work plan with truly "suite" office space. You'll stroll the charming courtyard with its terrazzo art, sparkling fountain and lovely landscaping. You will have arrived. But first, you better get a move on.
